Handover report: Destination Nigeria brand identity kit v2.0

What is delivered

- **Idea and strategy:**
- creative audit of v1;
- creative direction v2 (*the land, drawn and photographed*);
- brand foundation v2.
- **Logo:**
- the supplied master, preserved exactly, in five colourways;
- a small format and a production path;
- the roundel, for avatars only.
- Formats: SVG, PDF, EPS, PNG.
- **Colour and type:** 10 colours with specifications and swatch files; Newsreader and Public Sans (OFL), static and variable.
- **Photography:** 9 graded, captioned library images; untouched originals; 4 rejections with reasons; a register with identification confidence and rights status.
- **Engraved plates:** Zuma Rock (with sun, quiet sky and vignette versions) and Agbokim Waterfalls, in Forest and Paper inks, as SVG, PDF and PNG.
- **Backgrounds:** 8 grounds, in 16:9 (including 4K), 4:5, 9:16 and A4 (vector PDF).
- **Social:** 7 compositions × 4 formats, with live HTML sources and `content.json`.
- **Presentation:** 19-layout master and a 16-slide sample deck (PPTX, POTX, PDF).
- **Documents:** 22 Word templates (PDF, DOTX), calculating spreadsheets, business cards (general, Eddie Madaki, Lulu) and three email signatures.
- **Website:** homepage design (desktop and mobile), tokens, components, web images, hero, OG image, favicons and map style.
- **Events:** programme, invitation, badge, wayfinding, roll-up, media wall, stage, speaker and partner screens.
- **Motion and sound:**
- a 25 s brand film in four formats;
- logo reveal and sting, with alpha versions;
- a seamless plate loop and a Lottie sting;
- sonic logo, sting, film score and bed.
- **Guidelines:** 31-page PDF and a quick reference, with HTML sources.
- **Presentation boards:** 6.
- **QA:** before/after comparisons, QA report (31/31) and change report.

Supplied contact details, as applied

- **Telephone:** +234 909 884 3308
- **General:** info@destinationnigeria.org
- **Eddie Madaki:** eddiemadaki@destinationnigeria.org
- **Lulu:** lulu@destinationnigeria.org
- **Web:** destinationnigeria.org, inferred from the email domain. Confirm it.

Email addresses are set in lower case; they are case-insensitive.

To confirm before publication

1. **Photo rights.** Photographer and licence for every supplied image, including derivatives, since the plates are traced from them.
2. **Tarkwa Bay.** The location of the Tarkwa Bay image.
3. **Idanre release.** A model release for the person in the Idanre image, or use crops that exclude him.
4. **Website address.**
5. **Roles and surnames** for cards and signatures, if wanted.
6. **Postal address, registration and bank details** for letterheads and invoices, which stay as placeholders.

Editable sources vs. exports

Editable source	Export
SVG logos, plates and lockups	PDF, EPS, PNG
HTML artboards (social, web, events, backgrounds, boards, guidelines)	PNG, JPG, vector PDF
DOCX, PPTX, XLSX (real styles, layouts and formulas)	PDF, DOTX, POTX
HTML motion compositions plus `film.py` timeline	MP4, WebM, alpha MOV and WebM, GIF, Lottie
`sonic.py` and `film.py` scores	WAV 48 kHz / 24-bit, MP3

Rebuilding

Install the fonts and dependencies (`16_SOURCE_FILES/README.md`), then run `16_SOURCE_FILES/build/build_all.sh` . To add a place: 1. Put a verified, licensed, high-resolution photograph in `SUPPLIED_BY_CLIENT` . 2. Add it to `photo.py` and `brand.PHOTOS` . 3. Optionally add a plate in `plates.py` . 4. Rebuild.
