Destination NIGERIA

COLOUR SPECIFICATION

Destination Nigeria — Colour Specification v1.0

Sampled colours come straight from the supplied logo artwork: #103428, #2C5040, #E8A432, #EAEAEA and #FFFFFF. **Recommended** colours were developed for this system and are not in the supplied files.

CMYK values are starting points for coated stock (ISO Coated v2 / FOGRA39), adjusted by hand from screen values. Always ask the printer for a hard proof. Pantone candidates must be checked against a physical Pantone guide before you specify them.

Colour	HEX	RGB	CMYK (coated, approx.)	Source	Use	Contrast vs white / ivory / forest
Forest Deep (primary)	`#103428`	16, 52, 40	85/45/75/60	sampled	Primary brand colour. Wordmark, headlines, institutional backgrounds, body text on light grounds.	13.6 / 11.98 / 1.0
Ridge Green (primary)	`#2C5040`	44, 80, 64	75/35/65/40	sampled	Mountain tone in the logo. Secondary backgrounds, panels, charts, hover states.	9.02 / 7.94 / 1.51
Sun Gold (primary)	`#E8A432`	232, 164, 50	5/38/88/0	sampled	The sun. Single focal accent: sun disc, key numbers, buttons on dark. Never for small text on light.	2.15 / 1.89 / 6.34
Harmattan Ivory (primary)	`#F5F0E6`	245, 240, 230	2/4/9/0	recommended	Default light ground for documents, presentations and web. Warmer than white.	1.14 / 1.0 / 11.98
White (primary)	`#FFFFFF`	255, 255, 255	0/0/0/0	sampled	Reversed logo, paper white, UI surfaces.	1.0 / 1.14 / 13.6
Mist (secondary)	`#EAEAEA`	234, 234, 234	0/0/0/10	sampled	Horizon line tone in the supplied reversed logo. Hairlines and dividers on dark grounds.	1.2 / 1.06 / 11.31
Canopy Green (secondary)	`#4E7A62`	78, 122, 98	68/25/62/10	recommended	Supporting green for charts, icons and illustration layers.	4.9 / 4.32 / 2.77

Colour	HEX	RGB	CMYK (coated, approx.)	Source	Use	Contrast vs white / ivory / forest
Sage (secondary)	`#A9BFA9`	169, 191, 169	35/12/35/0	recommended	Light green tint for table bands, map land, background contours.	1.96 / 1.73 / 6.94
Charcoal (neutral)	`#1B201E`	27, 32, 30	70/55/60/75	recommended	Darkest neutral (green-black). Cinematic backgrounds, long-form body text alternative.	16.51 / 14.54 / 1.21
Stone (neutral)	`#5F6662`	95, 102, 98	55/40/48/30	recommended	Captions, metadata, footnotes, secondary UI text (passes AA on white and ivory).	5.89 / 5.19 / 2.31
Haze (neutral)	`#E7DFCF`	231, 223, 207	8/10/20/0	recommended	Deeper ivory for cards, table headers and print panels.	1.32 / 1.17 / 10.27
Laterite (landscape)	`#B4532A`	180, 83, 42	15/75/95/5	recommended	Red-earth accent drawn from Nigeria's laterite soils. Culture and heritage stories; sparingly.	4.99 / 4.39 / 2.73
Savannah (landscape)	`#D8C49B`	216, 196, 155	15/20/42/0	recommended	Dry-season grass and sand. Illustration layers, photo-overlay warmth, map water-free land.	1.71 / 1.5 / 7.96
Confluence Blue (landscape)	`#2E6E76`	46, 110, 118	82/35/45/15	recommended	River and coastline tone (Niger–Benue). Maps, routes, information graphics, digital links on light.	5.82 / 5.12 / 2.34
Harvest Gold (secondary)	`#9A6510`	154, 101, 16	25/55/100/15	recommended	Accessible gold for text and icons on light grounds (AA for large text and UI on ivory).	4.95 / 4.36 / 2.75

Palettes

- **Primary:** Forest Deep, Ridge Green, Sun Gold, Harmattan Ivory, White.
- **Secondary:** Canopy Green, Sage, Mist, Harvest Gold.
- **Neutral:** Charcoal, Stone, Haze.
- **Landscape (muted accents):** Laterite, Savannah, Confluence Blue. Use at most one landscape accent per piece, never more than about 10% of the area.
- **Campaign accents (optional):** Use full-strength Sun Gold on Forest or Charcoal for campaign hero moments. Don't add new hues per campaign; vary the photography instead.

Proportion (typical layout)

Ivory/White 60% · Forest Deep 25% · Ridge/Canopy/Sage 10% · Sun Gold ≤5%.

Digital UI palette

Role	Token	Value
Surface	--dn-surface	Ivory #F5F0E6 (alt. White)
Text	--dn-text	Forest Deep #103428
Muted text	--dn-text-muted	Stone #5F6662
Primary button		Forest Deep fill, white text (13.6:1)
Accent button on dark		Sun Gold fill, Forest Deep text (6.3:1)
Link on light	--dn-link	Confluence Blue #2E6E76 (5.1:1 on ivory)
Focus ring	--dn-focus	Sun Gold 3px outline + 2px offset

Warning	--dn-warning	#9A6510
Error	--dn-error	#B3261E
Info	--dn-info	#2E6E76

Document palette

Body text: Forest Deep (or Charcoal for long reads) on White. Headings: Forest Deep. Rules and table lines: Sage or Mist. Table header band: Haze. Highlight figures: Harvest Gold. Sun Gold is for graphic marks only, never for text on white (2.1:1 fails).

Accessibility rules

- Body text must reach at least 4.5:1. Forest, Ridge, Charcoal, Stone, Confluence and Canopy on white or ivory all pass.
- Sun Gold on light grounds fails for text. On light grounds use Harvest Gold (#9A6510) for gold text and icons.
- On Forest Deep, use White, Ivory, Mist, Sage or Sun Gold for text. All pass AA.
- Never use colour alone to carry meaning in charts or maps. Add labels, patterns or icons.

Photography and campaign grading

- **Warm, natural light.** Shoot at golden hour where possible. Keep highlights creamy, never clipped.
- **Grade:** lift the shadows slightly toward Forest (#103428 at 5–10% in the shadows). Keep skin tones natural and true. Never grade skin toward green or grey.
- **Overlay for text:** use a Forest Deep → transparent gradient (bottom or left, 0–70% opacity), never a black overlay.
- **Duotone (graphic use only):** Forest Deep shadows → Savannah highlights, for backgrounds and texture. Don't use it on portraits.

- **Avoid:** heavy HDR, teal-and-orange looks, desaturated 'poverty' aesthetics, and oversaturated greens.
