Horizons, opened.

Destination Nigeria is a national tourism development, investment and destination-marketing platform. It connects public institutions, states, businesses, communities, operators, investors and creative partners. Its identity has two jobs: to make Nigeria feel irresistible to experience, and credible to invest in.

This foundation is based on the project brief. The executive concept note was not supplied with the artwork, so check it against that note before publication.

ESSENCE

Horizons, opened.

PURPOSE

To grow Nigeria's tourism economy by connecting the people who make experiences with the people who want to enjoy them or invest in them, through clear coordination and credible information.

PROMISE

We will show you Nigeria as it is: varied, creative and full of opportunity. We will give you what you need to experience it, invest in it and explore it with confidence.

Two registers, one family

POSITIONING

For travellers, investors and partners who want to understand Nigeria beyond the headlines, Destination Nigeria is the national platform that brings destinations, institutions, businesses and communities together under one trusted, coordinated identity.

PERSONALITY

- **Ambitious**, not boastful
- **Welcoming**, not over-familiar
- **Credible**, not bureaucratic
- **Curious**, not generic
- **Contemporary**, not trend-chasing

VALUES

- Authenticity
- Coordination
- Opportunity
- Stewardship
- Excellence

DESTINATION REGISTER

Cinematic, full-bleed imagery. Display serif. Evocative copy. One sun.

INSTITUTIONAL REGISTER

Ivory or white grounds. Structured grid. Inter. Sourced data. Restraint.

Clear, warm, assured

AUDIENCES

Primary

- Domestic travellers and the diaspora
- International leisure and cultural travellers
- Investors, developers and financiers
- Federal and state tourism institutions

Secondary

- Operators, hospitality and transport
- Host communities and creatives
- Media and trade press
- Sponsors and event partners

MESSAGING HIERARCHY

EXPERIENCE. INVEST. EXPLORE.

PILLAR	CORE MESSAGE
Experience	Culture, food, festivals and hospitality, met first-hand.
Invest	An investable, coordinated sector with real projects.
Explore	From coast to plateau to savannah, with the routes made clear.

TONE OF VOICE

- Name the place, the dish, the festival, the person.
- Use short sentences and active verbs.
- Use numbers only when they are sourced.
- Write “Destination Nigeria” in full; never “DN” in public copy.

Avoid: “hidden gem”, “land of contrasts”, “vibrant tapestry”, unsourced superlatives, stereotypes, and any endorsement or date that has not been confirmed.

The supplied logo is the master

The landscape, sun and serif wordmark form one indivisible lockup. Every variant in this kit re-uses the supplied vector paths. Nothing has been redrawn.

Master file

02_LOGO_MASTER_FILES/SVG/DN_logo_primary_fullcolour.svg (from supplied Asset_2).

Correction made

In the supplied reversed file (Asset_1), the dot of the first "i" sat about 1 unit to the right of its stem. The kit's reversed masters use the geometry from the full-colour master, so the dot is centred. The two supplied originals are kept unchanged in _SUPPLIED_ORIGINALS.

Never

Retype, re-space, stretch, re-colour outside the approved colourways, or add a tagline inside the artwork.

Logo family

Primary — master

Horizontal (secondary)

Stacked (secondary)

Horizon Roundel — compact symbol

Landscape symbol

Small-format (≤160 px / 35 mm)

Use the primary logo by default. Use the horizontal and stacked lockups only where the primary will not fit. The Horizon Roundel is for avatars, favicons and app icons. It shows the logo's own landscape through a circular window and is never placed next to the full logo.

Clear space = x

x = the height of the lowercase “n” in the wordmark, about 11% of the logo’s width.

Keep at least 1x clear on all sides of the primary, horizontal and stacked logos. Keep 0.25 × the diameter clear around the Horizon Roundel.

No text, image edge, other logo or graphic device may enter this zone. Allow more space where you can.

Minimum reproduction sizes

60 mm — recommended for A4 letterhead

35 mm / 140 px — minimum, primary

25 mm / 100 px — minimum, small-format version

Roundel minimum: 8 mm / 16 px (favicon)

ASSET	PRINT MIN.	DIGITAL MIN.
Primary logo	35 mm wide	140 px
Small-format logo	25 mm	100 px
Horizontal lockup	40 mm	160 px
Stacked lockup	25 mm	100 px
Landscape symbol	15 mm	60 px
Horizon Roundel	8 mm	16 px
Production 1-colour (engraving, embroidery)	40 mm	—

Approved colourways

Full colour on Ivory

Full colour on White

Reversed on Forest

Reversed on Charcoal

All-white on Ridge / photography

One-colour Forest

One-colour black

Forest on Sun Gold (campaign only)

On photography, place the all-white or reversed logo on a calm area, or over the Forest gradient overlay. Never put the full-colour logo on mid-tone or busy images.

Incorrect usage

Do not stretch or squash

Do not recolour

Do not rotate

Do not add effects

Do not rearrange elements

Do not outline

Do not retype the wordmark

Do not place on busy, low-contrast grounds

Also never: add a tagline inside the artwork, separate the sun from the inselberg in the primary logo, use the logo as a pattern on official documents, or put the logo inside a box other than the approved roundel.

Primary palette

Forest Deep

#103428 · RGB 16 52 40
CMYK 85/45/75/60

Recommended

Stone
#5F6662 · RGB 95 102 98
CMYK 55/40/48/30
Recommended

Haze
#E7DFCF · RGB 231 223 207
CMYK 8/10/20/0
Recommended

Laterite
#B4532A · RGB 180 83 42
CMYK 15/75/95/5
Recommended

Savannah
#D8C49B · RGB 216 196 155
CMYK 15/20/42/0
Recommended

Confluence Blue
#2E6E76 · RGB 46 110 118
CMYK 82/35/45/15
Recommended

Use landscape accents (Laterite, Savannah, Confluence) sparingly: at most one per piece and about 10% of the area. CMYK values are coated-stock starting points. Always ask the printer for a proof.

Contrast, measured

PAIRING	RATIO	WCAG 2.2
Aa Forest on Ivory	12.0:1	AA body
Aa Charcoal on White	16.5:1	AA body
Aa Stone on Ivory	5.2:1	AA body
Aa Confluence on Ivory	5.1:1	AA body
Aa Harvest Gold on Ivory	4.4:1	AA large/UI only
Aa Ivory on Forest	12.0:1	AA body
Aa Sun Gold on Forest	6.3:1	AA body
Aa Sage on Forest	6.9:1	AA body
Aa Sun Gold on White	2.1:1	Fail — graphics only

Body text must reach at least 4.5:1. Sun Gold is never used for text on light grounds. Use Harvest Gold instead.

Charts and maps must not rely on colour alone. Add labels, patterns or icons.

Three open-licence families

DISPLAY

Aa

Playfair Display

Headlines, titles, campaign lines. Echoes the high-contrast serif of the wordmark. Fallback: Georgia.

SANS

Aa

Inter

UI, body, labels, tables, data (tabular figures, ₦). Overlines in caps at +0.22 em echo NIGERIA. Fallback: Calibri / Arial.

EDITORIAL

Aa

Source Serif 4

Long-form reading, standfirsts and pull quotes. Fallback: Cambria / Georgia.

All three are licensed under the SIL Open Font License, are built into Google Workspace, and are supplied in 03_COLOR_AND_TYPOGRAPHY/fonts. Playfair Display has no ₦ glyph and no tabular figures, so always set prices and data in Inter.

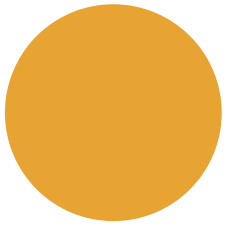

Hierarchy

hero	Hero headlines	Playfair Display 500 · 72px / 1.04
h1	Section headings	Playfair Display 500 · 48px / 1.1
h2	Sub-section headings	Playfair Display 500 · 34px / 1.15

button	**Buttons and labels**	Inter 600 · 15px / 1.0

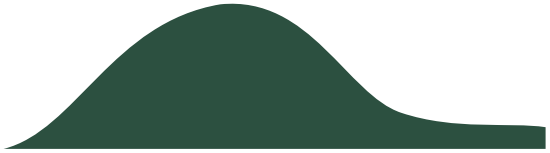

Horizon & Inselberg

Horizon lines

Sun disc

Inselberg & ridges

Confluence curve

Contour field

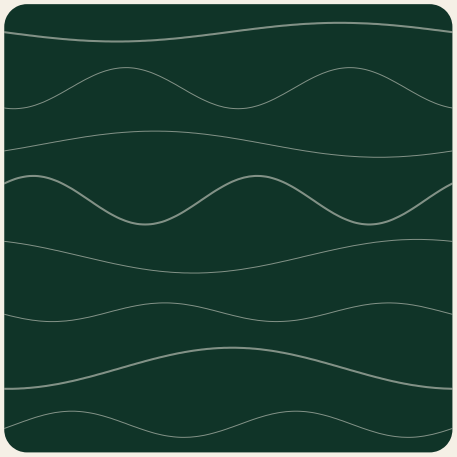

Route line

Each device comes from the logo or from Nigeria's land. Inselbergs are the granite monoliths of the central plateau. The confluence is where the Niger meets the Benue. Do not add unrelated ornament or generic "African" pattern.

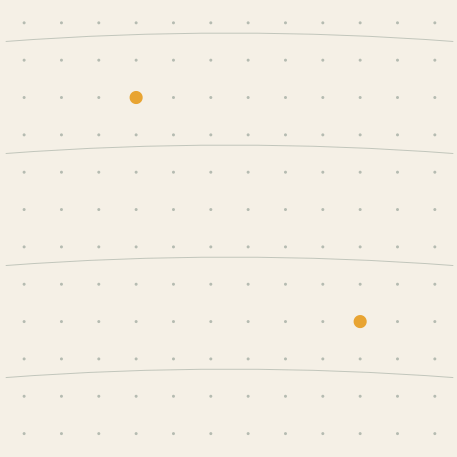

Seamless patterns

Contour

Horizon lines

Sun grid

Confluence

Tiles: 04_VECTOR_GRAPHICS_AND_ICONS/patterns (SVG plus PNG previews). Paper grain: 05_BACKGROUNDS_AND_TEXTURES/textures. Patterns support layouts; they never sit behind the logo or body text at more than 12% contrast.

Real places, real people, warm light

PRINCIPLES

- **Specific:** a named place, dish, festival or maker, never a generic “Africa” shot.
- **Human:** people as protagonists with agency, photographed with consent.
- **Golden-hour warmth:** creamy highlights and gentle shadows lifted toward Forest.
- **Horizon composition:** leave sky or calm space for type.
- **Dignified:** no poverty tourism, no exoticising and no staged “tribal” clichés.

Placeholder art direction: horizon low, sun as focal point, space for type. Replace with licensed photography.

GRADING

- Shadows +5–10% toward Forest #103428.
- Keep skin tones true; never grade skin green or grey.
- Text overlays use the Forest gradient (05/11), never black.
- Duotone (Forest → Savannah) is for texture only, never for portraits.
- Avoid HDR, heavy teal-and-orange and over-saturated greens.

Every image needs a record

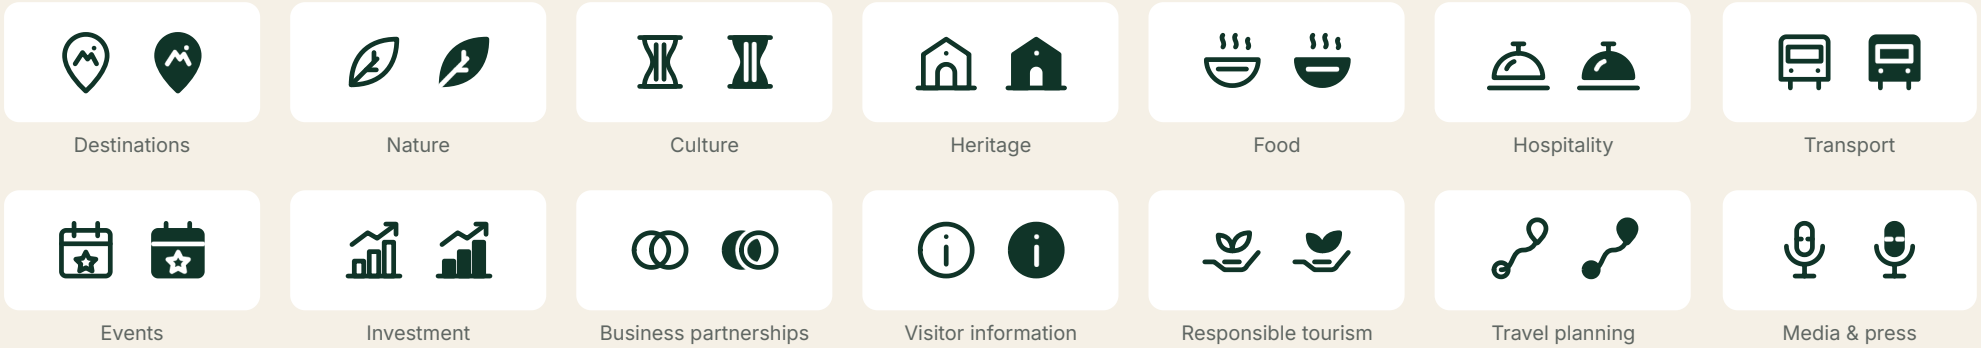

No photograph in this kit shows a real place. Every image slot holds a clearly labelled, illustrated placeholder.

Stock libraries searched during production did not return verifiable Nigerian locations. Using foreign landscapes would misrepresent the country, so none were used.

BEFORE PUBLISHING ANY IMAGE

- Record the source, photographer, licence, licence ID, location (verified), date and model/property releases in 06/SOURCE_RECORDS/image-register.csv.
- Credit format: *Photo: Name / Agency*, in the caption or the credits list.
- Use AI-generated imagery only if it is labelled as such, and never to depict real destinations, people or events.
- Get written consent from identifiable people, and community approval for sacred or ceremonial subjects.

Icon family

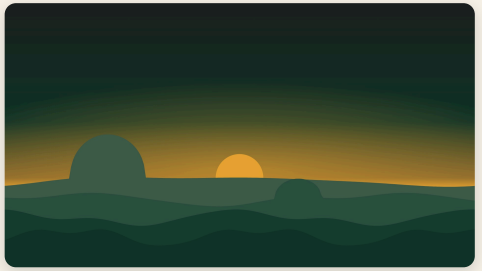

24-unit grid · 2-unit safe margin · 1.5 stroke · round caps and joins. Line and solid styles share their geometry. There are also 18 interface and brand extras. Files: SVG (Forest and currentColor versions) plus a web sprite.

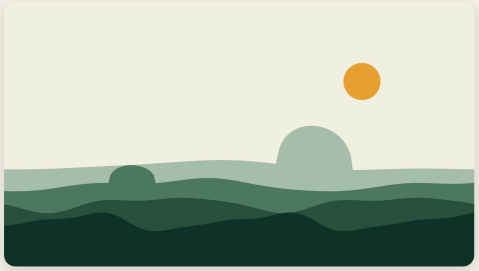

Background library

Ivory corporate

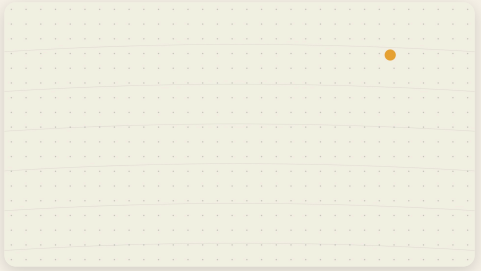

Forest institutional

Confluence campaign

Savannah editorial

14 backgrounds, each in 16:9, 4:5, 9:16 and A4 portrait and landscape (vector PDF). SVG sources are included.

Horizon structure

- **Grid:** 12 columns. A4 margins 22 mm; 16:9 slides 0.75 in; web max 1240 px with 24 px gutters.
- **Spacing:** 8-point scale (4, 8, 12, 16, 24, 32, 48, 64, 96, 128).
- **Horizon:** one strong horizontal division per layout; type sits on or below it.
- **Logo position:** top-left by default; centred only on ceremonial items.
- **One sun:** one gold focal point per composition.

Official news

Each template comes in 4:5, 1:1, 9:16 (Stories, Reels covers, WhatsApp status) and 16:9 (LinkedIn, Facebook, X), plus YouTube and banner sizes. Edit content.json and re-run social.py. Never publish statistics, dates or endorsements that have not been verified.

Logo reveal storyboard

0.8s 1.8s 2.6s 3.3s 4.2s 6.9s

- **A** Cinematic reveal, 7 s · **B** Minimal, 2.5 s · **C** Presentation opener, 8 s · **D** Seamless loop, 20 s · **E** Symbol, 3 s.
- Easing: cubic out (ease-out) and a mild back-out on the sun only. No spins, morphs, shakes or particles. The logo is only ever scaled uniformly.
- Formats: MP4 (H.264), WebM, lossless alpha MOV (PNG codec), VP9 alpha, GIF previews, Lottie (B, E) and a PNG of the final frame.

A drum that speaks, a sun that rises

0.0 Pad · shekere | 0.9 Talking-drum phrase | 2.1 Thumb-piano ascent | 3.3 Sun: bell + chord | 6.5

Sonic logo · 6.5 s

D major pentatonic. A dùndún-style talking-drum phrase “speaks”, then a lamellophone ascent rises to the sun moment. Synced to motion A.

Sting · 2.5 s

Drum glide, three tines, bell. Used for web welcomes, short social and bumpers (motion B and E).

Intro bed · 30 s loop

A 12/8 groove with bell pattern, shekere, bass and tines. Seamless loop at −18 LUFS. The masters are −16 LUFS, 48 kHz / 24-bit WAV, plus 320 kbps MP3.

The audio is an original composition, fully synthesised in code (16_SOURCE_FILES/build/sonic.py). It uses no samples and no third-party recordings. Recording live instruments with Nigerian musicians is recommended for v2.

Designed for everyone

Colour & type

- Body contrast ≥ 4.5:1; UI ≥ 3:1.
- Body text ≥ 10 pt in print, 16 px on the web.
- No gold text on light grounds.

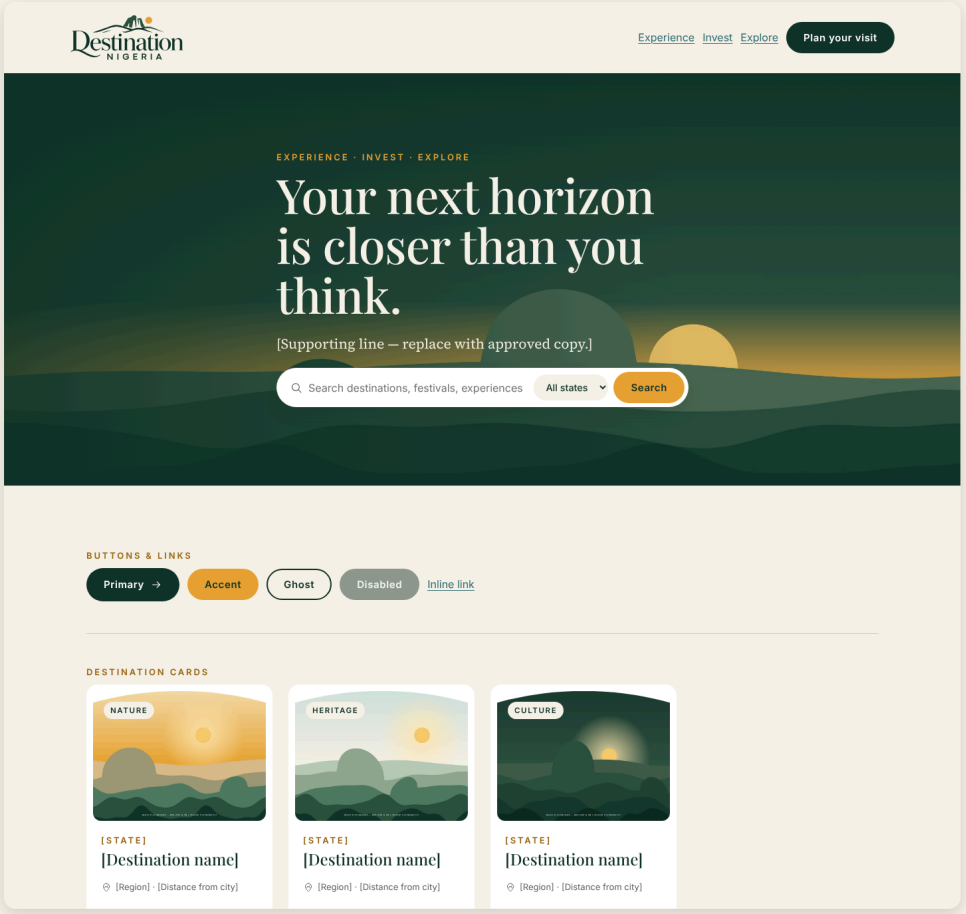

Digital

- Visible focus: 3 px Sun Gold ring.
- Alt text for every image, and captions for all video.
- Honour reduced motion (the loader and cards do).
- Error messages in text, not colour alone.

Documents & events

- Use real Word heading styles, so PDFs are tagged.
- Large-print versions on request.
- Signage: 40 mm letters for 10 m viewing, and pictograms with text.
- Plain language first.

Web system

- **Tokens:** dn-tokens.css and dn-tokens.json (W3C design-token format).
- **Components:** buttons, search, destination, editorial and investment cards, forms, alerts, newsletter, map, 404 and empty states, loader.
- **Icons:** favicon.ico/svg, 16–512 px PNGs, maskable icon, manifest.
- **Sharing:** Open Graph cover 1200 × 630.
- **Map:** MapLibre style JSON in brand colours, plus SVG maps.

Print specifications

ITEM	SIZE	BLEED / SAFE	STOCK & FINISH (RECOMMENDED)
Letterhead	A4	No bleed; 10 mm minimum margin	100–120 gsm uncoated, natural white
Business cards	85 × 55 mm	3 mm / 4 mm	400 gsm uncoated; premium: gold foil on the sun only
Reports	A4	3 mm on covers	Cover 300 gsm silk + matt laminate; text 115 gsm
Roll-up banner	850 × 2000 mm	3 mm; bottom 150 mm hidden	Anti-curl PET, matt
Media wall	3000 × 2400 mm	50 mm	Matt fabric (no glare under lights)
Signage A2	420 × 594 mm	3 mm	5 mm foamex or Dibond, matt

Colour: send PDF/X-4 with fonts embedded. Use the CMYK starting values in 03 and ask for a hard proof. Evaluate the Pantone candidates (Forest 3435 C / 553 C; Gold 7409 C / 7563 C) against a physical guide. Use the production 1-colour compound path for dies, foil, embossing, engraving and embroidery.

Formats and naming

USE	FORMAT
Logos (any size)	SVG · PDF · EPS (vector)
Office / web raster	PNG (transparent), JPG, WebP
Documents	DOCX / DOTX → PDF
Presentations	PPTX / POTX → PDF
Motion	MP4, WebM, MOV with lossless alpha (PNG codec; ProRes 4444 on request), Lottie JSON, GIF preview
Audio	WAV 48 kHz / 24-bit master, MP3 320 kbps
Digital system	CSS variables, JSON tokens, HTML

NAMING CONVENTION

`DN_[asset]_[variant]_[size or format]_[version].ext`

For example: DN_logo_primary_reversed_2000px.png · DN_bg_05_golden-horizon_16×9_1920×1080.jpg · DN_Report_Template_A4_v1.1.docx

- Use lowercase-hyphenated descriptors.
- Put the version only on edited derivatives (v1.1, v2.0). Masters keep their names.
- Never overwrite masters; save derivatives to 17_EXPORTS.

Brand asset governance

Ownership

The brand owner, to be named by Destination Nigeria, approves new templates, partner co-branding and any change to the masters.

Approval flow

1. Draft from an official template.
2. Fact and source check, with the verification line completed.
3. Brand check against the quick-reference sheet.
4. Sign-off by the brand owner (external use).

Partners & co-branding

Partner logos appear only with a signed agreement and approved files. The partner badge is for contracted partners only. Never imply government affiliation, endorsement or official status that has not been confirmed in writing.

Version the kit like software. Record every change in 18_QA_AND_HANDOVER/CHANGELOG.md and rebuild with the scripts in 16_SOURCE_FILES/build.

Do and don’t

APPROVED

- Official templates from this kit
- The master logo files, unaltered
- Verified facts with sources
- Licensed, credited photography
- Campaign line as a separate lockup
- Partner badge with a signed agreement

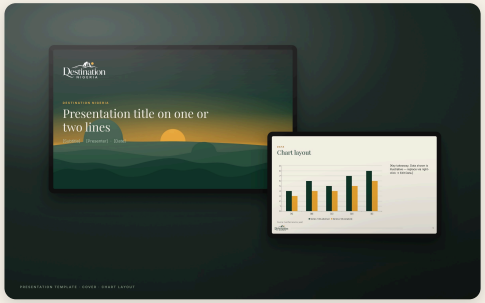

PROHIBITED

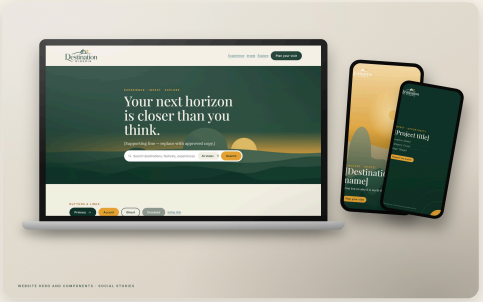

- Fake or implied official seals, crests or coats of arms
- Unverified partner, sponsor or government logos
- Invented statistics, dates, addresses or bank details
- Stretched, recoloured or retyped logos
- Generic “African” patterns and stereotypes
- Political or commercial endorsements without approval

In use

The mockups are visualisations only. Production artwork lives in folders 02–13.

Brand questions and approvals: [brand owner name · email] · v1.0 · [Month YYYY]
